4 Weekly Income: Average £4,000 PART TIME

Being a single parent and a full time schoolteacher was proving to be very difficult, as the time I had to spend with my children was limited due to the time constraints and stress of teaching. I needed to find a way to replace my income, but on a part-time basis, giving me the freedom from a full-time job and allowing me to spend more quality time with my children, whilst still having a good income.

Since joining this business my income has increased from £400 in the first month to an average of **£4,000** every 4 weeks **part-time**. This is a **Residual Income**, which is paid to me in return for the work I've done over the last few years, and **will continue to increase** and come in for the rest of my life, similar to a pension. Being able to leave full-time employment at age 44 saved me 21 years of my life in the rat race! Anyone can do this; it's very simplicity means it is greatly misunderstood by most people however! Our job is to help you from day one.

I now only have to work a few hours each week and have a lifestyle of my own choice. I thoroughly recommend this business to anyone looking to improve their circumstances. No stress; No boss; Plenty time; No financial worries; It works!
